Organization: HSLDA Member

General Comment

Dear Sirs,

I think that this law should not be passed and that religious organizations and colleges should not be forced to fund abortion pills. This is horrible and the law should be changed. We should always be given the right to do what is right or wrong according to our conscience. This pill is wrong not only morally but scientifically. I believe that not only is this horrible before God because HE hates the shedding of innocent blood, but also for the woman because I am pretty sure this pill will have terrible side effects which can harm them physically and prevent them from having children at a later date, or worse yet cause harm to their body. This pill is wrong in so many ways and I would like to see that HSLDA and other religious organizations should have the right to say NO we don't want to fund the abortion pill.
